SHOCK WAVES IN THE SOLAR CORONA AND INTERPLANETARY SPACE

STIP Workshop, Smolenice, June 1980

edited by

M. A. SHEA, D. F. SMART, S.T. WU, and S. PINTER

278 pp.

Paper ¥12,350

Order ref. no.
SPAC 03201/2

1982, D. Reidel Publishing Company

PROCEEDINGS OF THE SEVENTH OBERWOLFACH CONFERENCE ON MATHEMATICAL METHODS IN CELESTIAL MECHANICS, 1981

edited by

U. KIRCHGRABER, H. RUSSMANN and V. SZEBEHELY

252 pp.

Paper ¥12,350

Order ref. no.
CELE 02801/2

1982, D. Reidel Publishing Company

The Study of Travelling Interplanetary Phenomena (STIP) is one of the interdisciplinary studies established by the International Council of Scientific Union's Special Committee on Solar-Terrestrial Physics (SCOSTEP). The scientific objectives of STIP are the study of phenomena that propagate through the interplanetary medium and a search for understanding of these phenomena during both quiet (normal) and active periods. The included papers are grouped in subject order, beginning with the sun and expanding into the interplanetary medium. Topics covered are the characteristics of shock waves in the solar chromosphere and corona and the propagation of shock phenomena into the interplanetary medium. Laboratory measurements, in situ observations, and theoretical aspects of shock phenomena are included.

The 7th Oberwolfach Conference on the mathematical aspects of Celestial Mechanics took place from August 24 to August 28 1981. The main topic dealt with was the triple collision technique and further major sections included periodic orbits, perturbation theory, numerical methods and numerical studies. In addition, two papers on central configurations and on KAM theory were given, as well as a small number of other talks on subjects not included in the above classification. The participants were also offered a talk by Professor Otto Volk on a historical topic.

I.A.U. 会員の方へ

この程、私共(株)ニュートリノはオランダの出版社、Reidel社の日本総代理店となりました。Reidel社はI.A.U.の出版物を多数出版しており、I.A.U.会員にはそれらを会員価格で頒布してまいりましたが、それらの業務をも(株)ニュートリノが引き続き継続して行うこととなりました。

Reidel社よりの指示により以下のように価格の割引を設定させていただきますので、今後は(株)ニュートリノに御注文くださるようお願い申し上げます。

- | | |
|--|------|
| 1. IAUS : I.A.U. Symposium Series | 35%引 |
| 2. IAUT : I.A.U. Transaction | 35%引 |
| 3. ASSL : Astrophysics and Space Science Library | 20%引 |
| 4. その他のReidel社の天文学分野の書籍 | 15%引 |

※この割引によるオーダーはI.A.U.会員の個人購入に限り、原則として前払注文になります。
