- Each speaker may present a maximum of three presentations. Only one type (a) presentation is accepted per person, and the third presentation must be the type (c) (poster only).
- We expect you to give your presentation on-site, but online presentations will be accepted (on a best-effort basis). To reduce the burden on the meeting's operations, please give your presentation on-site unless you have a special reason, such as childcare or nursing care.
- Poster presentations (b, c) will be physically displayed at the venue. Digital files for posters are also collected and posted to the web site for remote participants. There will be opportunities for communication such as Slack. We will announce the latest information on the meeting website.

(5) Application process for presentation (email)

- Details will be available on the annual meeting web page. Please read the instructions carefully.
- ※ Application by postal mail is no longer acceptable (ended in 2016).
- ※ The deadline for **abstract submission** is Tuesday, June 10, 2025, 12:00 JST.
- ※ This is a strict deadline : any applications submitted after the deadline are to be rejected. Please allow sufficient time for your submission. Abstract submission using email tends to suffer from network or computer troubles. We suggest that you submit your abstract by the evening of the day before the due date.
- ※ The quality of the presentations should be high enough to present. Please make effective use of the space in the proceedings, avoiding too short a description. The abstract should be appealing to a wide range of audience with various interests. Please make sure the following instructions; (i) provide sufficient background explanation, and (ii) include concrete descriptions of your research contents, results, and discussions.
- ※ The proceedings are distributed before the annual meeting, and will be issued on February 20, 2025. The contents will be made public on the web page at the time of publication. The news media may pick up your presentation content after it is published. Please be careful when presenting unpublished results or information related to patents, etc.
- ※ The presenter is not necessarily the first author of the work. The presenter must pay the registration fee.
- ※ Please use the following PASJ keyword list in filling the "keyword" in the abstract for fields M to Z2 (i.e. except for field Y).
URL https://academic.oup.com/pasj/pages/Pasj_Keywords
- ※ A press conference will be held around the same time as the Annual Meeting. For more information, please refer to tennet or visit our website.

(6) Order designation of multiple presentations

- If you would like to give multiple presentations in a group with a specified order, please apply from the web form on the annual meeting website by the application deadline.
- We cannot accept any requests for specific presentation dates and times.
- Type (b) presentations will be scheduled at the end of each session (two-hour). If you include two types of presentations, please put type (b) last. Please understand in advance that we may not meet all of your requests.

(7) Post-Deadline Paper (PDL)

- PDL is a system that accepts presentations even after deadlines for regular applications have passed. These presentations must be on urgent topics. You need a clear reason why you cannot wait until the next annual meeting, which will occur in about six months.
- Please contact the Annual Meeting Executive Committee and clearly explain the reasons for applying for a post-deadline presentation.
- The Executive Committee will judge whether the application should be accepted. Please note that the acceptance criteria are considerably more stringent than for regular applications.
- Please contact the Annual Meeting Executive Committee for more information on how to present at the PDL.
- Please consult with the Annual Meeting Executive Committee for applications after the PDL acceptance period.
- In principle, all the presentations, including post dead-line paper, should be presented by ASJ members; non-ASJ members are not allowed to show post-deadline presentations. Processing a membership application in addition to evaluation of the PDL application will take a while. If you plan to submit a PDL, please first contact the Annual Meeting Executive Committee.

(8) Latest information corner

- We will set up a corner at the meeting to post the latest information. It is not possible to present at the Annual Meeting, and work will not appear in the proceedings. Contributions, which have low urgency, will not be accepted.
- Please submit an outline of the bulletin and information on a poster to the Annual Meeting Executive Committee in advance.
- There is limited space in the information corner, so applications may not be accepted.

(9) Cancellation or change of presentation

- Presentations should not be cancelled without approval from the Annual Meeting Executive Committee. Presentation speakers, titles, authors, and content should also not be changed without permission from the committee.
- Co-authors should agree to changes or cancellation. The first author should make the request to cancel or change a presentation and provide reasons why the cancellation or changes are necessary via the web form on the Annual Meeting website. Please try to set up a substitute presenter to avoid cancelling. However, a substitute presenter must be a full or associate member of the Society.
- Registration fees will not be refunded if a presentation is cancelled.
- The first author and the presenter can be defined separately in your submission.
- The first author appears at the top of the author list of the proceedings, and the presenter at the time of application can be identified in the annual meeting program.

(10) Plenary Forum · Special presentation · Invited presentation

- You can propose a Plenary Forum on subjects that many members are interested in, but we do not call for Plenary Forum proposals due to the limited number of time slots at the Autumn

Annual Meeting.

- If you would like to propose a Plenary Forum, please contact the Annual Meeting Executive Committee.

(11) Exhibition booth for full members

- We will set up a space for exhibition booths for full members. If you wish to display an exhibit, please indicate the name of the booth/purpose/facilitators (more than three full members) and submit it to the Annual Meeting Executive Committee by the due date. The area of one section is 2 × 2 m to 3 × 3 m (depending on the circumstances of the venue). The participation fee will be 50,000 yen. Please note that we may not be able to accommodate all requests if we have several applications.
